OVERVIEW

Khaleej Links General Trading is a family-owned business founded in the United Arab Emirates in 2011 based in the heart of UAQ and Dubai. Our business is the fastest-growing disposable products corporation in the United Arab Emirates rapidly expanding from a single general trading store in Dubai, UAE into a major importing and exporting food packaging supplier with clients across the Gulf Cooperation Council (GCC) and extending into other regions. We service a wide range of customers from volume sales to local traders, to businesses across the hospitality industry including hotels, cafes and catering companies.

Our ever-increasing product range includes over 1200 disposable items covering tableware, Paper Cups, Aluminum Containers, Aluminum foil, Cling Film, Paper products and other food packaging supplies and we are proud that many of the food packaging products we supply are a part of our very own Khaleej Pack brand. However, we do not base our brand's reputation on the size of our company. We prefer quality over quantity, choosing to offer only reliable food packaging products that also deliver the best value for money to our clients. Therefore, our organic growth and success is due to our reputation as a reliable source of quality products.

CUSTOMER SERVICES

Our philosophy is simple: to ensure the complete satisfaction of our esteemed clients in the delivery of disposable food products. Our goal is to maintain long-term close relationship with all our clients, whether big or small. We achieve this by ensuring that we remain trustworthy, respectful and genuinely interested in the success of our customers.

We take the time to understand our clients' needs in order to offer superior solutions. Whether the focus is on eco-friendly or recyclable products, short-term disposable items, heavy duty disposables or any other requirement, we will work to deliver only the very best product available, and continue to maintain open communication with our customers to ensure we always understand their needs.

INNOVATION & QUALITY

Our supply and importing capabilities mean that we are able to deliver our clients unique and innovative products at excellent prices. Our brand, Khaleej Pack, allows us to supply disposable food packaging products that we know are quality assured and meet our clients' requirements.

Other items that we import must meet our strict quality assurance requirements so that we remain dependable in a busy high-turnover industry where our clients cannot be distracted from their core business with quality or performance issues. Our significant growth is due to our ability to understand what is missing from the marketplace and ensure that we continue to meet industry needs through reliable supply, so that we remain at the forefront of disposable product solutions.

WHY US?

Our enduring success across both industries is underpinned by two indispensable cornerstones:

- Unrivalled Customer Service Excellence
- Uncompromising Quality and Pioneering Innovation
